## Armen Meliksetyan

### Software engineer

Highly motivated and innovative young professional with a passion for software engineering, DevOps, machine learning, data analysis, and AI development. Seeking opportunities to apply my skills and knowledge in a dynamic and forward-thinking environment. Committed to continuous learning and pushing the boundaries of technology.

### Education

#### BS Computer Science

From August 2024 to May 2028

[American University of Armenia](#) Yerevan City, Armenia

Pursuing a Bachelor of Science in Computer Science with a strong foundation in programming, algorithms, data structures, and software development. Gaining hands-on experience in **machine learning, data science, cybersecurity, and web development** through coursework and projects. Well-versed in **mathematics, linear algebra, probability, and statistics**, applying them to problem-solving, AI, and data-driven decision-making. Passionate about leveraging technology to solve real-world challenges.

#### TUMO

Since March 2021 [TUMO Center for Creative Technologies](#) Yerevan City, Armenia

- Participated in various courses and seminars.
- Interacted with experienced specialists and international representatives.
- Acquired valuable experience and skills.

#### High School

From September 2021 to May 2024

[NUACA high school, IT faculty](#) Yerevan City, Armenia

#### Certifications

Since 2020 [IT courses from various companies](#) Remote

Engaged in various courses. Certificates are available in my portfolio.

### Voluntary experience

#### Organizer

November 2023 [Internet Society](#) ISTC Foundation

#### Member of the 4th Membership

From September 2022 to January 2023 [Center Up](#) Yerevan

### Work experience

#### Software Engineer

Since December 2023 [Addevice LLC](#) Yerevan

- Leading full-stack development on critical real-world projects, leveraging a diverse technology stack including Python, PHP, Laravel, relational databases, and more.
- Managing deployment and maintenance of applications on Linux servers, ensuring high performance and security.
- Collaborating with cross-functional teams to design and implement robust software solutions that meet project requirements.

Soft Skills

Communication

Effective communicator, capable of conveying ideas clearly to enhance team collaboration.

Teamwork/Collaboration

Collaborative team player, contributing to a positive work environment through open communication.

Adaptability/Flexibility

Comfortable navigating changing work environments, adjusting to new challenges as they arise.

Integrity

Committed to ethical conduct, fostering trust through transparent professional interactions.

Problem-solving

Skilled at analyzing issues and proposing practical solutions, contributing to streamlined workflows.

Time Management

Efficient time manager, consistently meeting deadlines for project milestones due to high level of responsibility.

Work experience

Trainee Python Developer

From October 2022 to December 2023 [Goya Company](#) Yerevan

- Actively involved in software development projects using Python.
- Collaborated with the development team to implement innovative solutions.
- Gained valuable DevOps skills.

Computer skills

Bash Scripting

Wordpress

Linux

Networking

Cybersecurity

- Proficient in identifying and mitigating cyber threats, vulnerabilities, and attack vectors.
- Skilled in using OSINT for enhanced threat detection, risk assessment, and security improvement.
